

SMART Board interactive whiteboard

Learning comes alive

Take students on a journey with the SMART Board™ interactive whiteboard, which features a large, interactive screen. Explore websites, deliver presentations or take virtual field trips together. By transforming learning into a dynamic experience, you can improve student motivation and performance.

Engage with ease

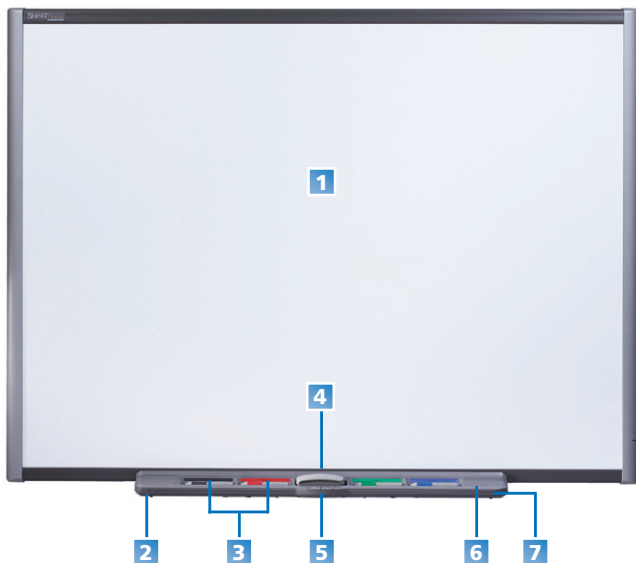

The power to teach engaging lessons is at your fingertips. Simply touch the surface to access computer applications, or select menus and icons. With the SMART Board interactive whiteboard, you can use your finger as a mouse or to write notes. Or you can simply pick up a pen and start writing in digital ink.

Hands-on lessons

The SMART Board interactive whiteboard meets the needs of both visual and kinesthetic learners. Students see large, vibrant images and can physically interact with material by moving letters, numbers, words and pictures with their fingers. The large working surface also means students with special needs can see, read and manipulate information more easily.

Robust resources

The SMART Board interactive whiteboard, combined with SMART Notebook software, is a powerful lesson preparation tool. You can plan lessons using curriculum-specific images and lesson activities that support math, language arts and science. Build lessons using graph paper, music sheets or even a map of Africa. In class, you can involve students, add notes and save all your information, every step of the way.

Components

- 1** Touch-sensitive surface
- 2** Expansion slot
- 3** Pens
- 4** Eraser
- 5** On-Screen Keyboard, right mouse and help buttons
- 6** SMART Pen Tray
- 7** USB connection

Dimensions

Active screen size

Wide format

Model	area (diagonal)
690	94" (238.8 cm)
685	87" (221.0 cm)

Active screen size

Standard format

Model	area (diagonal)
680	77" (195.6 cm)
660	64" (162.6 cm)
640	48" (121.9 cm)

Key features

- **Touch system** – Write, erase and perform mouse functions with your finger, a pen or an eraser. You need no proprietary tools.
- **SMART Pen Tray** – Pick up a pen or the eraser, and the pen tray automatically detects which tool you've selected. Buttons activate the On-Screen Keyboard, the right-click and help functions.
- **Digital ink** – Write in digital ink over applications, websites and videos.
- **Save function** – Instantly capture and save notes.
- **Durable surface** – The hard-coated polyester surface is tear proof, optimized for projection, compatible with dry-erase markers and easily cleaned with whiteboard cleaner.
- **Active screen size** – Available in three standard sizes or two wide-screen formats.
- **Wall-mount bracket** – Install your SMART Board interactive whiteboard simply and securely.
- **USB connection** – Easily connect the SMART Board interactive whiteboard to your computer.
- **Expansion slot** – Use this interface to add future hardware, such as the SystemOn expansion module.
- **Warranty** – Five years upon product registration, two years standard.
